igraphics manufactures a wide array of countermats using special materials and printing processes. This versatile product can be printed with traditional graphics or be created as a functional hands-on device with data wheels, pockets and full-blown electronic enhancements such as electro-luminescent inks and sound. Both foam and low tack removable backed mats are available.

- The BarrierFloor™ HP Advantage
- 90-day No Sand Guarantee (due to moisture absorption) to the builder.
 - Manufactured to be free of knots and board patches.
 - Patented™ vertical notch system in the tongue and groove configuration to allow standing water to drain during the construction period.
 - Protected with SmartGuard™ process to resist moisture, fungal decay and mold.
